MELPOMENE. Words can not describe the beauty of this variety. Frosted white, spotted, clouded and bordered with pinkish crimson. Petals deeply recurved and widely bordered.

TIGRINUM Splendens (A). The Tiger Lily. A large form of the old garden favorite of old-fashioned gardens. The color is orange-red, spotted purple or reflexed petals. Strong and hardy and the latest to bloom of all the lilies. August-September. 4 to 5 feet.

FLORE PLENO (A). Double Tiger Lily. The only lily that is really perfectly double, having the same color and characteristics of the former.

Grape Hyacinths

(Muscari)

An invaluable group of spring-flowering bulbs for naturalizing freely in the rock garden or in the border (en masse).

Azureus syn. MUSCARI Azureum. One of the most delightful of the early spring flowers. It commences to send up its bright heads of azure blue early in February. Very effective when planted in masses in the rock garden where it loves to push through low mossy Saxifrages and other carpeters. When once established it increases fast; it is perfectly hardy and has few rivals in the early days of spring.

50c per dozen; \$3.50 per hundred; \$30.00 per thousand.

BOTRYOIDES. Blue Italian grape hyacinth, effective in quantity.

50c per dozen; \$3 50 per hundred; \$30.00 per thousand.

BOTRYOIDES Album. Pearls of Spain. The very pretty white form.

50c per dozen; \$3 50 per hundred; \$30.00 per thousand.

HEAVENLY BLUE Conicum. Large spikes of brilliant blue flowers, very distinct; a showy and giant form of conicum, strongly recommended for grass planting. Its color is well described in its name. By far the finest of the Muscari and perhaps the finest of all spring bulbs for making a telling effect when planted in bold masses. Grand bulbs for planting where they can remain undisturbed for a few years, and are certainly unequalled for wild and woodland gardens. We offer extra large flowering bulbs

60c per dozen; \$4.00 per hundred; \$35.00 per thousand.

*And the stately lilies stand
Fair in the silvery light,
Like saintly vestals, pale in prayer,
Their pure breath sanctifies the air
As its fragrance fills the night.*
